

## **BOEING COMMERCIAL AIRPLANES, FABRICATION DIVISION – AUBURN PLANT (Boeing Auburn Plant)**

The Washington State Department of Ecology (Ecology) invites the public to comment on the Supplement to the Final Interim Remedial Action Work Plan, the First Amended Agreed Order, and the State of Washington Dangerous Waste Permit for the Boeing Auburn Plant.

The AMB Property Corporation has purchased Building 17-05 and parcels 8, 9 and 12 (Area 1 Property) of the Boeing Auburn Plant. This property has been vacated by Boeing. The redevelopment planned by AMB Property Corporation is expected to improve property utilization. The Boeing Company and the AMB Property Corporation will now be jointly responsible for the cleanup of the contaminants in groundwater beneath the Area 1 Property and surrounding locations, as well as the site-wide cleanup of the Boeing Auburn Plant. Three documents have been modified to insure the continuation of the interim action during the AMB Property Corporation's demolition of Building 17-05 and construction of a new building on the property. The public is being asked to direct their comments to the specific impacts that the demolition and reconstruction have on the remedial action taking place on the property.
